FOR IMMEDIATE RELEASE

Property Management Systems Announces Partnership with The Pixie Project

Portland (OR), August 25, 2017 – Property Management Systems is excited to announce our collaboration with the Pixie Project.

Based in Portland Oregon, the Pixie Project is a non-profit animal adoption and rescue center that also offers pet adoption and pet owner education services.

What's great about the Pixie Project is that many of their adoptable animals come from rural areas of Oregon where those animals might not have a chance at adoption. Thanks to their hard work many animals have been rescued over the years and have gone on to live great lives with their owners in the Portland area.

For every home that we rent, our company will donate \$25 to the Pixie Project (www.pixieproject.org), accomplishing our goal to help everyone to find a home.

About Property Management Systems

Property Management Systems specializes in professional property management for the Portland Oregon area.

Since 2010 we've helped hundreds of renters find homes in the Portland Oregon. Our company also saves owners the time, money, and hassle of managing their rental properties themselves. To learn more about Property Management Systems please visit our website at <http://www.propertymanagementsystems.com> or call (503) 515-3170.
